## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 38 – 57 are allowed.
2. The following is an examiner's statement of reasons for allowance: Arguments in Applicant's response filed on October 29, 2003 are convincing. Particularly line 18 of page 8 to line 2 of page 9. Moreover the prior art of record, aside from the terminally disclaimed portion of US patent No. 6,417,546, does not teach, alone or in combination, a device including n-type and p-type transistors, wherein the gate dielectrics are different in composition, the gate dielectric of the p-type transistor being higher in nitrogen concentration at only one elevational location.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
